Please be aware these dates are our best estimates based upon collecting data from previous races. Due to the nature of sailing Clipper Ventures PLC can in no way guarantee that these arrival dates will be achieved. Always remember that sailing yachts have destination ports and NOT arrival times. Clipper Ventures PLC reserves the right to change dates to ensure the overall aim of the race is achieved.

Notes:

- * The crew changeover date is the contractual date on which the departing crew are free to leave the yachts and crew joining the boat must report. Joining crew can arrive before this date but accommodation on board the yachts cannot be guaranteed.
- ** This date is our best estimated date as Clipper Ventures PLC is not in control of the Panama Canal scheduling. The race shall start as soon as all of the boats are through the Canal and on the Caribbean side.
